SYNERGY IRRIGATION CONTROLLER

Smart irrigation control for farms at an affordable price

Overview:

Synergy Irrigation is a commercial-grade pump control and monitoring solution that helps farmers cut costs and improve efficiency. Designed as a cost-effective retrofit, it adds remote pump switching, smart scheduling, and cloud-based monitoring to make irrigation simpler, smarter, and more reliable.

Take the power back! Control your energy use

- Save time with pump control and monitoring from anywhere
- Keep it simple, or optimise to cut costs and boost efficiency.
- ✓ Align irrigation with energy price signals to reduce costs
- Flex Portal makes control easy from simple remote control on/off commands through to smart schedules aligned with power pricing.
